

# BRITO MIAMI PRIVATE HIGH SCHOOL CURRICULUM

Use this checklist to help your children do their homework easily and stress free.

---

We believe in a strong education, which requires that students make a determined effort to take every opportunity toward their own fulfillment as an individual and a member of the community. Furthermore, we encourage that students participate in complementary activities of an educational, artistic, athletic or creative nature. In addition, students in the upper level of our high school are encouraged to participate in our College Dual-Enrollment Program. This program is designed to prepare and give students an introduction to college level material.

All programs from nine through twelfth grade are established to meet all requirements for graduation as set forth by the Florida Department of Education. Students from grades 9 -12 must complete 24.0 credits as indicated below. Furthermore, a minimum of 80 community service hours must be completed in order to obtain a high school diploma.

---
